CONSTRUCTION CHEMICALS FOR INFRASTRUCTURE SECTOR

Organisers

The conference is being organised by **India Infrastructure Publishing**, the leading provider of information on the infrastructure sectors through magazines, newsletters, reports and conferences. The company publishes **Power Line, Smart Utilities, Renewable Watch, Indian Infrastructure** and **tele.net** magazines as well as a series of reports on related sectors including **Airports in India, Urban Rail in India, Ports in India, Railways in India, Road Development in India, Gas in India, Storage Infrastructure in India, Hydro Power in India, Tunnelling in India, and Construction in India**. The company also publishes **Roads & Bridges Directory and Yearbook, Ports Directory and Yearbook, Airport Business Directory and Yearbook, Oil & Gas Directory and Yearbook, and Urban Mass Transit Directory and Yearbook**.

Mission

The mission of the conference is to highlight the emerging construction chemical needs and requirements of the infrastructure sector, showcase the promising technologies and solutions, and discuss the issues and opportunities.

Target Audience

The conference is targeted at:

- ❖ Chemical Manufacturers
- ❖ Infrastructure Developers
- ❖ Real Estate Developers
- ❖ Architects
- ❖ Consultants

Key consuming sectors:

- ❖ Roads & Bridges
- ❖ Airports
- ❖ Ports
- ❖ Real Estate
- ❖ Hydro
- ❖ Metro
- ❖ Railways
- ❖ Oil & Gas Storage

Previous Participants

AGENDA/STRUCTURE

KEY TRENDS AND OUTLOOK

- ❖ What have been the key trends and developments in the construction chemicals market in India?
- ❖ What are the key issues and challenges?
- ❖ What is the future outlook? What are the major growth drivers for the construction chemicals market?
- ❖ What are the new opportunities?

GOVERNMENT'S PERSPECTIVE

- ❖ What is the government perspective on the construction chemicals market in India?
- ❖ What are the major issues and challenges? How does the government plan to address them?
- ❖ What have been the recent initiatives?
- ❖ What changes can be expected in the next one to two years?

MANUFACTURERS' PERSPECTIVE

- ❖ What is the manufacturers' perspective on the construction chemicals market in the country?
- ❖ What have been the key challenges and lessons learnt?
- ❖ What are their future plans? What is the expectation from the government and other stakeholders?

STANDARDS FOR MANUFACTURING AND APPLICATION OF CONSTRUCTION CHEMICALS

- ❖ What are the current quality standards for manufacturing and application of construction chemicals?
- ❖ What have been the recent measures/announcements? What is their likely impact?
- ❖ What are the key issues and challenges?

NEEDS AND REQUIREMENTS OF THE HYDRO SECTOR

- ❖ What are the emerging needs and requirements for construction chemicals from the hydro sector?
- ❖ What are the new technologies and chemicals the sector is considering?
- ❖ What are the issues and challenges?

NEEDS AND REQUIREMENTS OF THE ROADS AND BRIDGES SECTOR

- ❖ What are the emerging needs and requirements for construction chemicals from the roads and bridges sector?
- ❖ What are the new technologies and chemicals that the sector is considering?
- ❖ What are the issues and challenges?

NEEDS AND REQUIREMENTS OF THE METRO SECTOR

- ❖ What are the emerging needs and requirements for construction chemicals from the metro sector?
- ❖ What are the new technologies and chemicals that the sector is considering?
- ❖ What are the issues and challenges?

NEEDS AND REQUIREMENTS OF THE AIRPORTS SECTOR

- ❖ What are the emerging needs and requirements for construction chemicals from the airports sector?
- ❖ What are the new technologies and chemicals that the sector is considering?
- ❖ What are the issues and challenges?

NEEDS AND REQUIREMENTS OF THE RAILWAYS SECTOR

- ❖ What are the emerging needs and requirements for construction chemicals from the railways sector?
- ❖ What are the new technologies and chemicals that the sector is considering?
- ❖ What are the issues and challenges?

NEEDS AND REQUIREMENTS OF THE PORTS SECTOR

- ❖ What are the emerging needs and requirements for construction chemicals from the ports sector?
- ❖ What are the new technologies and chemicals that the sector is considering?
- ❖ What are the issues and challenges?

NEEDS AND REQUIREMENTS OF THE REAL ESTATE SECTOR

- ❖ What are the emerging needs and requirements for construction chemicals from the real estate sector?
- ❖ What are the new technologies and chemicals that the sector is considering?
- ❖ What are the issues and challenges?

NEEDS AND REQUIREMENTS OF THE OIL AND GAS STORAGE SECTOR

- ❖ What are the emerging needs and requirements for construction chemicals for the oil and gas storage sector?
- ❖ What are the new technologies and chemicals that the sector is considering?
- ❖ What are the issues and challenges?

ADMIXTURES (CONCRETE, CHEMICALS, ETC.)

- ❖ What admixtures are currently in use in India?
- ❖ What are the new requirements?
- ❖ What are the new trends and advancements?
- ❖ What are the global best practices? Which chemicals are the most promising and relevant in the Indian scenario?

FLOORING AGENTS

- ❖ What flooring agents/compounds are currently in use in India?
- ❖ What are the new requirements?
- ❖ What are the new trends and advancements?
- ❖ What are the global best practices? Which chemicals are the most promising and relevant in the Indian scenario?

WATERPROOFING

- ❖ What waterproofing compounds/chemicals are currently in use in India?
- ❖ What are the new requirements?
- ❖ What are the new trends and advancements?
- ❖ What are the global best practices? Which chemicals are the most promising and relevant in the Indian scenario?

SEALANTS AND ADHESIVES

- ❖ What sealants, adhesives and grouts are in use in India?
- ❖ What are the new requirements?
- ❖ What are the new trends and advancements?
- ❖ What are the global best practices? Which chemicals are the most promising and relevant in the Indian scenario?

PROTECTIVE COATING

- ❖ What protective coating (paints, etc.) are currently in use in India?
- ❖ What are the new requirements?
- ❖ What are the new trends and advancements?
- ❖ What are the global best practices? Which chemicals are the most promising and relevant in the Indian scenario?

REPAIR AND REHABILITATION

- ❖ What are the current practices being followed in India?
- ❖ What are the new requirements?
- ❖ What are the new trends and advancements?
- ❖ What are the global best practices? Which chemicals are the most promising and relevant in the Indian scenario?

CORROSION MANAGEMENT

- ❖ What are the corrosion management strategies followed in India?
- ❖ What has been the experience so far? What are the limitations and operational challenges of these technologies?
- ❖ What are some of the best practices in minimising corrosion?

IMPROVING SUSTAINABILITY AND GREEN BUILDINGS

- ❖ How can construction chemicals contribute to improving sustainability and developing green buildings?
- ❖ What are the key innovations and best practices?
- ❖ What are the key issues and challenges?
