**Corrigendum**

*This is with reference to the article, "Systems in Place", in the IT in Power section (Power Line, June 2008). APEPDCL's chief general manager, IT has made the following observations:*

*APEPDCL nominates its employees to the CTI, AP Transco, and only 2-3 per cent of the employees are sent to ESCL. Further, manpower is outsourced through a tendering process and their salaries are covered by the Minimum Wages Act. They are not "paid lower salaries of Rs 5,000 per month". Moreover, no GM, IT left for want of higher salary. From 2005 to April 2008, the post was handled by an internal candidate. During April-June 2008, the post was vacant and the DGM, IT was made in-charge of GM, IT. The DGM, IT then requested for relief and did not appear for the interview of GM, IT, for which he had applied. He was relieved from the DGM, IT post at his own request.*
